Bolton & Company and Singpoli Group Announce Strategic Partnership to Address Growing Insurance Needs of Local Asian Business Communities

Pasadena, California – Bolton & Company and Singpoli Group today announced a partnership that will provide new resources to address the growing insurance, risk management and employee benefits needs of Asian businesses and high net worth individuals in the region.

The newly formed Singpoli Insurance Solutions will function as a division of Bolton & Company, one of the nation's largest privately owned insurance brokers, and operate through the firm's Pasadena headquarters.

The program will bridge Bolton's insurance capabilities and resources with the experience and rapport that Singpoli Group, a multi-industry company that specializes in real estate development, wealth management and internet video distribution, has built among the Asian community in the San Gabriel Valley and beyond.

Ranya Ku, who has been active in commercial insurance for more than 12 years, will join the firm as Vice President of Singpoli Insurance Solutions. She holds Certified Insurance Counselor and Certified Insurance Service Representative designations and is experienced working with clients in importer/wholesaler, manufacturer and commercial real estate roles.

For Bolton President and CEO Steve Brockmeyer, the development points to a mutual commitment to serve the needs of the local community.

"This partnership reflects a shared philosophy that we need to provide leading resources and knowledge to best serve our clients," Brockmeyer said. "Through Bolton and Singpoli's combined experience and expertise, we look forward to supporting a growing segment of the community."

Singpoli Group CEO Kin Hui said the partnership with Bolton highlights a shared commitment to bringing eastern and western cultures together.

"Working together with Bolton, Singpoli Group honors its core vision, which is honestly protecting the best interests of clients, investors and employees," Hui said. "Our partnership is a benefit to the entire community."
